

## ProviderView Newsletter – July 20, 2023

### This message is for Avera Health Plans Participating Providers

Dear Valued Participating Provider,

The Consolidated Appropriations Act (CAA) requires Avera Health Plans to verify, and if needed, update online provider directory information at least once every 90 days. Today marks the launch of our first Provider Directory Accuracy Attestation cycle using the secure Avera Health Plans provider portal.

If you complete this task within two attestation cycles, there will be no disruption to the display of your information in the Avera Health Plans Provider Directory. Failure to complete this attestation process after two consecutive cycles will result in the suppression of your data from our provider directories as required under the act. Please attest to your data by logging into the Provider Portal and clicking on the “Attestation Worklist” located under the Office Management drop down. There you will find the data we have on your respective providers as it would be displayed in the provider directory and you can request changes or attest that it is accurate and requires no changes. This *first* attestation cycle begins today and closes on 10/16/23.

Thank you for taking the time to comply with the Consolidated Appropriations Act. Please feel free to contact our team with any questions you may have.

Mike Dooley, Director of Provider Contracting  
Phone: 605-322-4634

Steven Grogan, Provider Relations Specialist  
Phone: 605-322-4640
